November 1, 2005

RE: Paul Bole
Date Of Birth: 4-10-58

To Whom It May Concern:

Mr. Bole is a 47 year old male with a history of chronic back pain, status post DVT and also status post lumbar spinal surgery. He has been maintained on narcotics for the last year and a half. We are slowly weaning him down. He is slowly improving. He is currently on a regimen of 120 mg of MS Contin twice daily, as well as MSIR 15 mg one po q6hours prn. He is well controlled on this and has been doing well. He also has the DVT, which is large and needs to be monitored every 1-2 months to make sure it is shrinking as required and he is currently being maintained on Coumadin.

If you have any questions regarding his care or about his records, please contact me directly at my office, (814)373-2276.

Thank you,

Frank J. McLaughlin, D.O.
